

A grungy, textured brush font for action packed movie posters and titles.

Action Hero is a hand-drawn brush font inspired by action movie posters of the 1980s and 90s.

Does your movie feature a hostage situation on a speeding bus or train? Try Action Hero. How about a one man army tasked with rescuing stranded POWs? Try Action Hero! Maybe a post-apocalyptic race across the desert, or did they dare to kill your favourite second cousin? Big mistake - Get Action Hero!!!

The Action Hero font family collects four all-cap variants featuring a complete set of uppercase and lowercase characters, along with numerals, punctuation, language support and underlines. With so many creative options you'll never have to repeat characters (a personal bugbear with hand-drawn fonts) and achieve authentic hand-drawn looking title designs.
