

## River Jade font + Logo templates by Skylar Design

---

### INSTALL FONTS

Close all programs before you install fonts. After you have installed you can reopen your programs.

FONT 1: RIVER JADE find this font in the ZIP file you downloaded

FONT 2: CATAMARAN download from this link [www.fontsquirrel.com/fonts/catamaran](http://www.fontsquirrel.com/fonts/catamaran)

---

### INSTRUCTIONS FOR PHOTOSHOP

1. Open the .psd file and go to your layers panel. Click on the small eye icon to activate or deactivate the layers, and click on the tiny arrow next to the folder icon to open them up.
2. Use the premade logo templates to create a logo within minutes. Just change the text and save.
3. Save your logo for print: Go to > File > Save as > and select PSD (for layered file) or JPG (for file without layers) and click save.

Save your logo for web: Go to > Save for web > and select JPG (white background) or PNG (for transparent background) and click save.

### COMMON PHOTOSHOP ERRORS

Error message 'Photoshop document is unsupported'

Solution 1a. The file might be corrupted, try downloading the file once more. It is quite large so give it some time.

Solution 1b. Open the file directly via Photoshop instead of double clicking it. Go to Photoshop > File > Open and select the document.

Solution 1c. Open a new Photoshop file of 2500x2500, 300dpi RGB, and place the corrupted file into the new one.

---

## INSTRUCTIONS FOR ILLUSTRATOR

1. Open the .ai file and go to your layers panel. Click on the small eye icon to activate or deactivate the layers.
2. Use the premade logo templates to create a logo within minutes. Just change the text and save.
3. Save your logo for print: Go to > File > Save as > and select PDF, and click save.

Save your logo for web: Go to > File > Export > and select JPG (white background) or PNG (for transparent background) and click save.
